UNION STOCKYARDS, INDIANAPOLIS, Sept. 12.-Cattle-Receipts, 1,200; shipments, 500. For the week thus far the marketing of cattle has been fully as large as the same time last time a year ago. The receipts to-day were fully 400 larger than a week ago and 300 smaller than a year ago. The largest percentage of the receipts were cattle that were not fully up to the market did not develop any change of importance compared with the preceding markets this week. There is a continued limited and uncertain outlet for undergrade stock, while good fat cattle in all departments are bringing more satisfactory prices than they have for some time past, and feeders of good quality and proper weights are selling as high as they have rement whatever in conditions regarding the undergrade stock. Thursdays, instead of 7 a. m., as at present, thus considerably delaying the departure of those vessels. The reason for the alteration in time is the refusal of the White Star line to further co-operate with the general postoffice in accelerating the mail-boat service from Fuston Station, London, to Dublin. The company has hith-erto contributed \$30,000 yearly towards the acceleration, but it now says it feels it is no part of its duty to continue such an

Much Money Being Transferred to Move Crops Assigned as One Reason for the High Rate.

NEW YORK, Sept. 12 .- Call money advanced to 20 per cent. shortly before the close of to-day's market, and the list which had been heavy throughout, closed with marked declines. Opening prices were lower, though mostly fractional, but the unsettled tone which characterized the day's comparatively moderate transactions was apparent from the outset. London came lower in the absence of New York support, though later there was considerable improvement and a better demand for internationals in that market.

Missouri Pacific was the chief sufferer in the early trading, selling off about two points and making no recovery. The decline in the grangers and Pacifics was in part due to reports of frost in the corn belt. The selling of Baltimore & Ohio was accompanied by reports that insiders had discounted the extra stock issue. St. Paul received better support soon after the opening, but in the main stocks which then any particular stock, but the early high rate for call money, 10 per cent., coupled with reports that some of the banks were showing discrimination in the matter of collateral, added to the increasing uneasiness. Louisville & Nashville and Rock Island were among the few stocks that reflected firmness at this juncture, the latter selling ex.-dividend. Trading received another check in the second hour when call money advanced some more, but no great amount of long stock seemed to be offered. Nevertheless it was clear that a number of weak accounts were shaken out. There was a rally in the granger group on reports that the frost had done little damage, and at the same time, Manhattan, also selling ex.-dividend, was being absorbed in small lots on rumors of

closer relations with New York Central. The United States Steel shares were heavy, with little or no evidence of support, but the strength of Union Pacific and St. Paul was suggestive of pool support, while the weakness of Chesapeake & Ohio was attributed to inside selling. A further reactionary movement set in during the second hour of the afternoon, when money advanced to 15 per cent. Declines at that time embraced practically all the active issues and brought prices to the lowest level of the day. Maximum declines of 2 per cent. were registered by St. Paul, Missouri Pacific, Norfolk & Western and Northwestern, with a 314 point decline in Louisville & Nashville and even greater losses in the specialties. Announcement of the 20 per cent. rate in call money was the signal for another selling movement, but partial recoveries were made by St. Paul and Louisville & Nashville.

The final dealings brought some more liquidation and the closing was heavy and unsettled. In addition to the net losses already mentioned net declinese of a point or over were made by Atchison, Baltimore & Ohio, Chicago & Northwestern, Minneapolis, St. Paul and Sault Ste. Marie preferred North America, Reading second preferred Westinghouse Electric, New York Airbrake, General Electric, Virginia-Carolina Chemical issues, the copper stocks and numerous others. The gains were the exception and mostly fractional. London traded in about 15,000 shares, mostly on the buying side during the decline. Aside from the squeeze in call money the monetary

outlook generally was disquieting. Forecasts showed further heavy losses of cash by the banks, the greater part of it to the subtreasury, which paid out over \$440,000 for pensions and almost \$2,000,000 for gold, also transferring \$150,000 to New Orleans for crop purposes, but these operations will not show in to-morrow's bank statement. It was understood that the heavy loss in the surplus reserves had been met by a calling of loans. Reports of approaching imports of \$6,000,000 to this center and Boston were not confirmed. The bond market was less active to-day and reactionary, in sympathy with the depression in stocks. Total sales, par value, \$3,505,000. United States bonds were all unchanged on the last call.

Money Situation the Dominant Factor in the Day's Speculation.

[Meyer & Kiser's Telegram.] NEW YORK, Sept. 12 .- The money situation was the dominant factor in to-day's speculation. London prices came lower and a number of stocks were sold for foraccount. While the market found some support early in the day, the preponderance of liquidation sales have caused steady recessions and lower prices resulted for the entire list. Money rates worked to 20 per cent, and showed no abatement for the day. The favorable action of the St. Paul directors was ignored Lea in to-day's session, and so were all other bullish items. To-morrow's bank statement is expected to make a very poor showing, but, on the other hand, the liquidation that has taken place since yesterday afternoon has eased matters considera- | Co bly, and, furthermore, gold shipments from Europe are likely to take place almost immediately. While these conditions last liquidation will have to run its course and thus, for a day or two, we might witness a further declining tendency, but the moment relief of a substantial character should come to the money market better values for stocks will result. For the time being, however, somewhat lower values may expected.

The pools have claimed that they have all the time money necessary for their wants and have put up prices regardless of the situation. Unless something less of the situation. Unless something the property to give relief they may also be happens to give relief they may also be obliged to take care of the holdings of some other people who are not so fortunate. In some cases to-day it looked as though they are not disposed to protect the bull accounts of other people. All indicament to-morrow and many commission houses are advising their customers to be conservative in their operations. This advice, in view of the situation, would seem to be quite proper.

SHOT THREE PERSONS.

Then Attempted to Criminally Assault the Sister of His Former Wife.

PIERCE, Neb., Sept. 12.-Last night Gottlieb Niegenfind shot and killed his former appointing Northwest receipts, the corn wife, Mrs. Annie Peters, shot six times at attempt and covering, but as clearances proved small, export demand light and late Albert Breyer, her father, who died this morning, and shot the wife of Breyer in the shoulder, seriously and perhaps fatally wounding her. After the shooting Niegen-find left the house and meeting Mrs. Albert Breyer, her father, who died this find left the house and, meeting Mrs. 74%c, closed at 74c. Peters's sister, Lena Breyer, attempted a criminal assault. Mrs. Peters had been divorced from her

husband two years and he was thought to have left the country. He appeared at Pierce Sunday, however, and later paid several visits to the Breyer farm, where his former wife was living with her parents. He went to the Breyer home last evening and engaged his father-in-law in quarrel, the trouble being over Niegenfind's children. Mrs. Breyer ran from the house as Niegenfind drew a revolver and fired at her husband, who received five bullets in his body. Niegenfind then reloaded his revolver and began firing at corn, but experienced subsequent depres-Mrs. Breyer. After receiving a serious wound in the shoulder she made her escape. Niegenfind's former wife then appeared and attempted to assist her mother, and received a bullet in the breast, dying instantly. Niegenfind then made his es-cape. He met Lena Breyer, the nineteenyear-old sister of his former wife, and was in search of the fugitive.

PRICES AT FIRST TOOK AN ADVANCE AND THEN SETTLED BACK.

Wheat Followed in Sympathy, but the Chicago Pit Turned Heavy and the Close Was Weak.

CHICAGO, Sept. 12 .- A killing frost in half the corn belt ruled the grain pits today. While corn shorts were largely prepared for this sort of news, there was a an active business was done. Principally in sympathy with the corn advance, wheat made fair early gains. The outside situation, however, was weak, warmer weather ber. 52½c; December. 34½ 334½c; cash. No. 2 mixed, 58½c; No. 2 white, 58659c. Oats—No. 2 white, 36637c. Receipts—Wheat, 124,000 bu; corn. in general took profits. Most of the corn gain was lost and wheat under pressure closed weak. In the end, September and December wheat both lost %c, September and December corn gained 4c and Decemger oats lost 1/sc. Provisions closed at 20@221/2c higher. So much precautionary buying by shorts

had been done in anticipation of the frosts that the market was bereft of the exciting feature that otherwise would have characterized the opening. Killing frosts were reported in the Dakotas, Minnesota, Iowa and Nebraska and lighter frosts in southern Kansas. At Spencer Ia., the damage was estimated at 50 per cent. What was missed in last night's frosts bids fair to be nipped to-night. A big buying business started early, led by commission houses. The local crowd was somewhat against the price and sold, but the demand was good, and fair advances were regarded early. Local receipts were improved both in quality and quantity and cables turned a trifle better. While most of the local crowd wanted early profits, it was nearly midsession when the outside began to be affected by the advances, and at that time over the corn belt believe that a serious damage has resulted. However, the late liquidation and predictions for warmer weather after to-night's probable frosts lopped off much of the corn gain. May was strongest and closed strong %c up at 41%c. The nearer options were supplied to the shorts in sufficient demand and with the belief that the frost scare was passed, traders allowed prices to close at barely firm figures. September sold as high as 60%c and closed %c up at 60c. December sold at 44%c and closed %c higher at 43%@ 44c. Receipts were 218 cars, 60 of contracted

Wheat made some advances early in the day in sympathy with the corn bulge, but after a fairly heavy business the pit turned heavy and the close was weak. At the outset buying was general and in long quantities under the lead of a big elevator and the commission houses. The frosts Northwest, the continuation of the small spring movement and good clearances were the other bullish incentives. After the initial upturns, the early buyers turned quiet sellers and all the gain and more besides was lost. English cables were lower, but the continent held firm. St. Louis was a fair buyer here. Inasmuch as the corn market was the leader, the closing slump in wheat was attributable to some extent to the late ease in corn. December opened 1/3c to 1/3c up at 69%c to 69%c, sold at 69c and closed weak, 1/3c lower at 69@69%c. September sold from 741/2c down to a weak close, %c off at 73%c. Local receipts were 256 cars, seven of contract grade. Minneapolis and Duluth reported 631 cars, making a total for the three points of 887 cars, against 558 last week and 1.144 a year ago. Seaboard clearances in wheat and flour equaled 640,000 bushels. Primary receipts were 1,112,-000 bushels compared to 1,479,000 bushels

Oats had a small share of the interest to-day; corn detracted largely from this plt. There were no prominent features and the small early advances were purely sympathetic. There was a small demand for cash stuff. Scattered selling took away the slight early improvement and prices closed easy. December sold between 31%c and the close was 1/4 down at 311/2c. Receipts were 218 cars, eight of contract grade. Provisions ruled strong under the fluence of the advancing hog market. the rise there was considerable selling. which caused some reactions. The pit, however, was bullish on the cold weather and higher corn. The trade was good at times. though it was principally local. January pork closed at 20@221/2c up at \$15.221/2; Janpary lard, 15c higher at \$8.621/2, and January

ribs \$5@71/2 up at \$7.971/4. Estimated receipts for to-morrow: Wheat, 175 cars; corn, 215; oats, 195, hogs, 10,000
